

Global Superstore Business Insights Dashboard

Python | SQL | Power BI

Analyst: Vikas Prajapati

Executive Summary

Problem Statement

Analyze sales, profit, and customer behavior to identify key business issues and provide data-driven recommendations.

Tools & Approach

Python for data cleaning, SQL for analysis, and Power BI for visualization.

Key Metrics

1.47M total profit • **51K** total orders • **2K** total customers

Category & Regional Performance

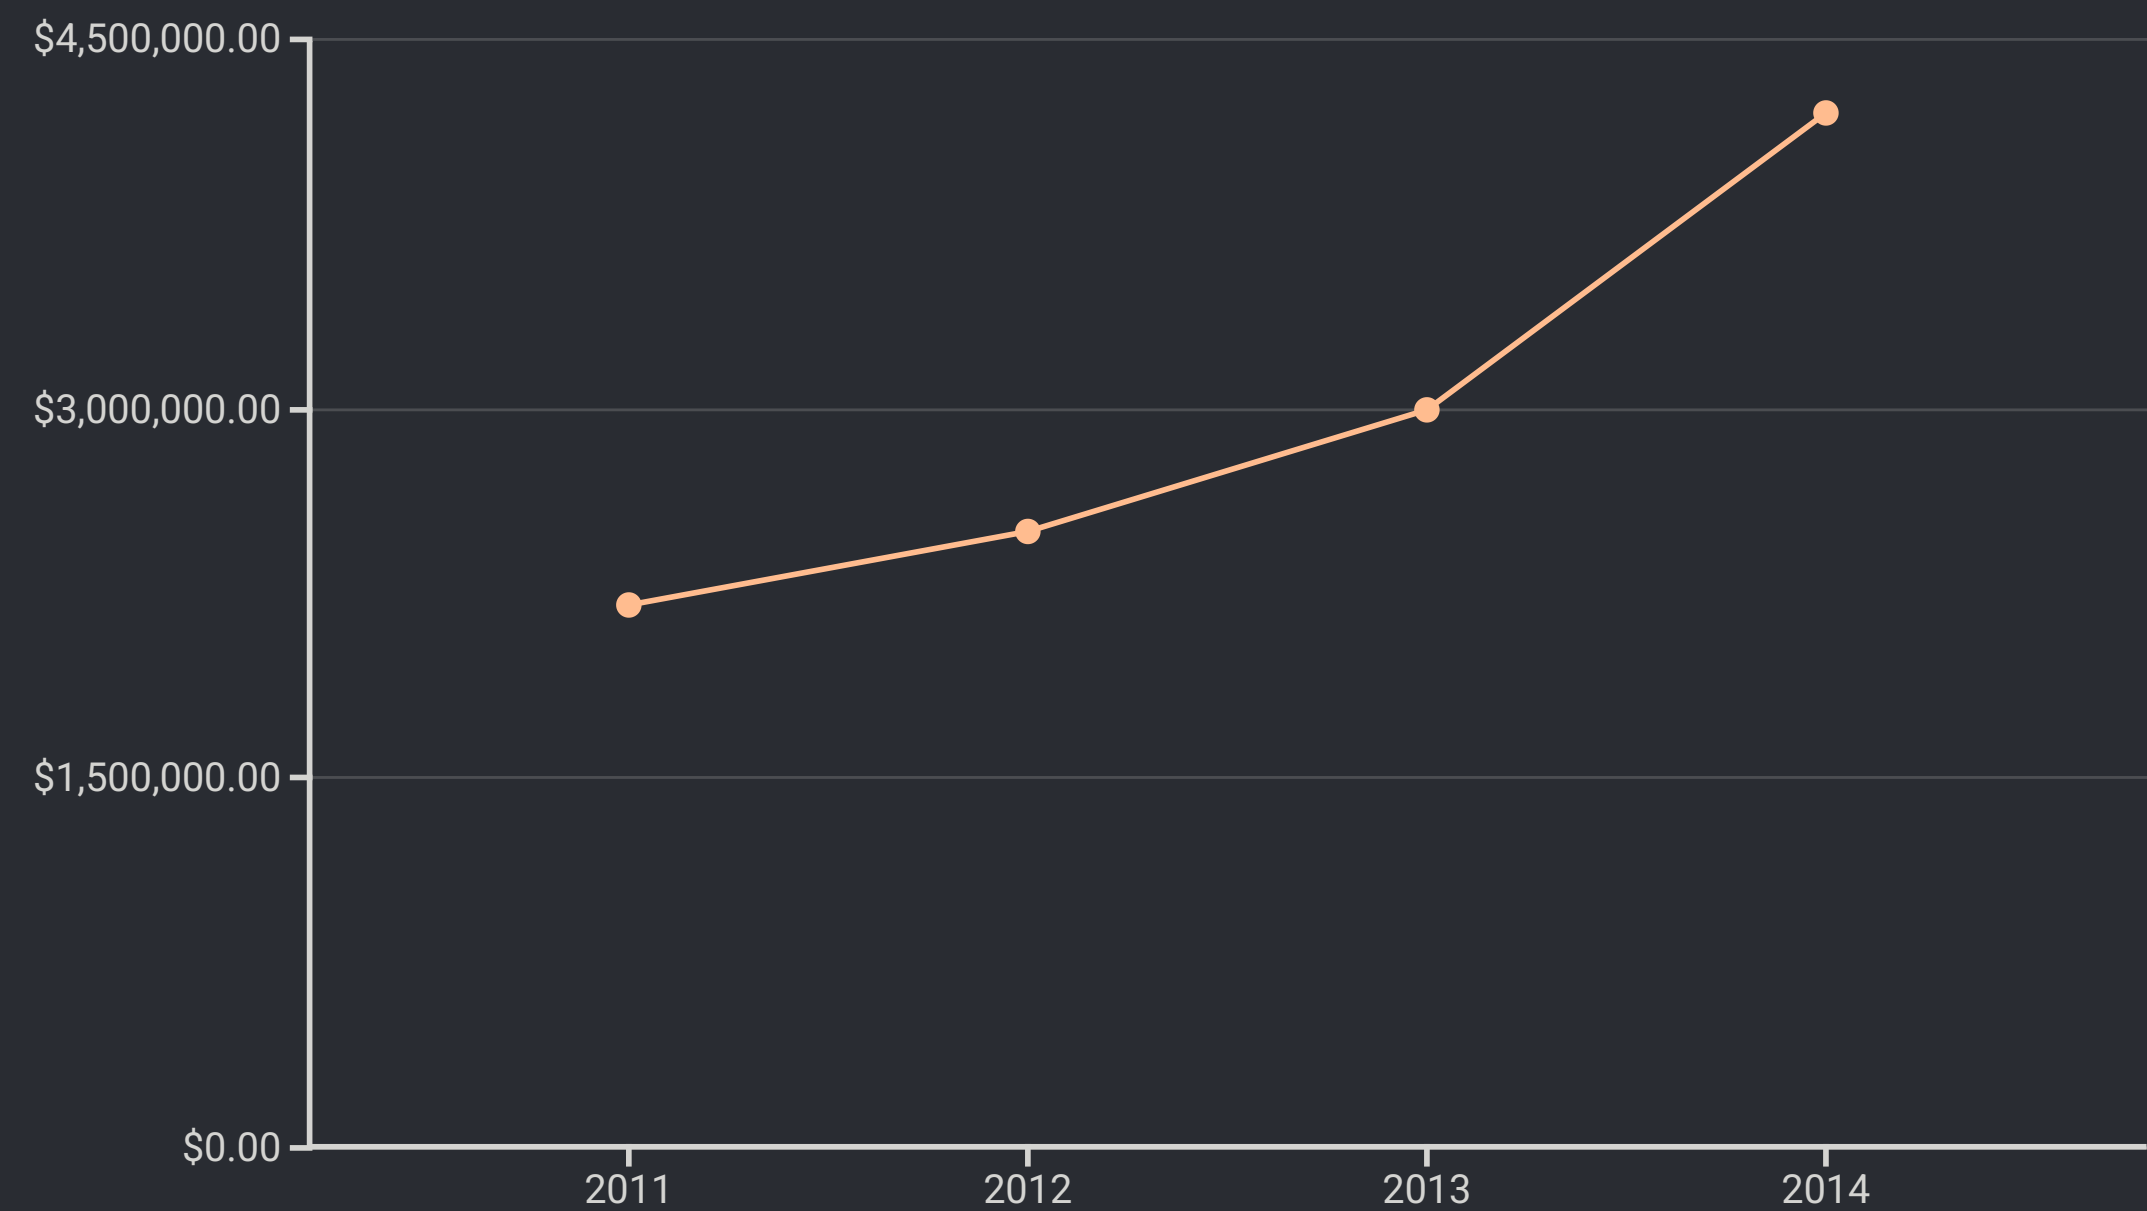

Sales by Category

- Technology: ~\$4.5M
- Furniture: ~\$3.5M
- Office Supplies: ~\$3.0M

Top 5 Sales by Region

- Central: ~\$2.8M
- Africa: ~\$0.8M
- Central Asia: ~\$0.8M
- Caribbean: ~\$0.3M
- Canada: ~\$0.1M

Sales Trend Analysis

Sales show a consistent upward trend from 2011 to 2014, with Technology category driving the highest sales among all categories.

Segment & Sub-Category Insights

Sales by Segment

- Consumer: 51.48%
- Corporate: 30.25%
- Home Office: 18.27%

Top Sub-Categories

- Phones: \$1,700K
- Copiers: \$1,550K
- Chairs: \$1,550K
- Bookcases: \$1,450K
- Storage: \$1,150K

Top Products & Revenue Concentration

1

Apple Smart Phone

\$850K in sales

2

Cisco Smart Phone

\$750K in sales

3

Motorola Smart Phone

\$700K in sales

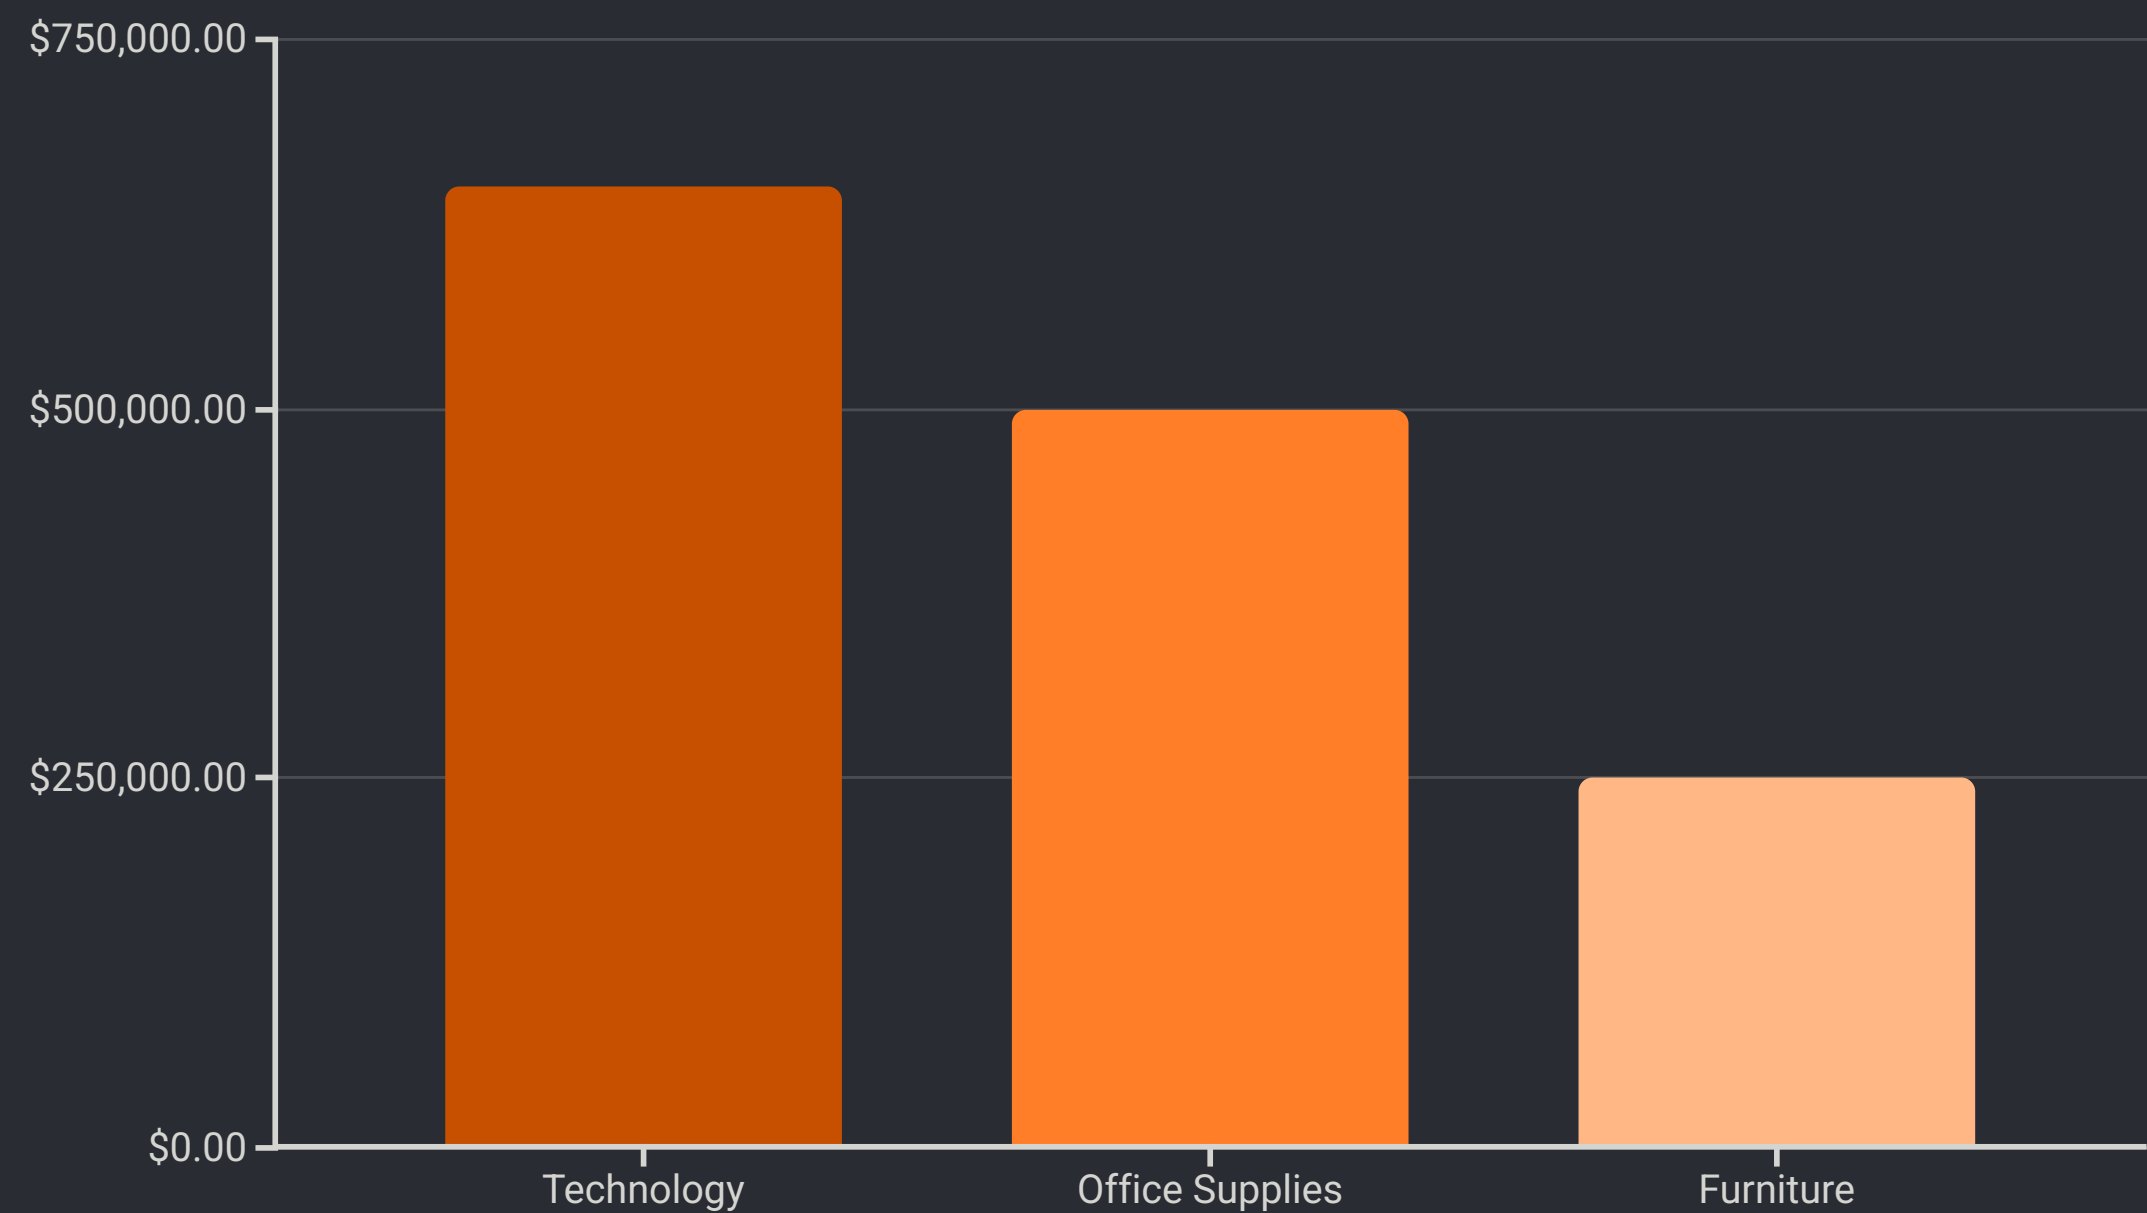

4

Nokia Smart Phone

\$650K in sales

Few products generate most revenue, with most sales concentrated in the consumer segment.

Profit Analysis by Category

Profit varies significantly across categories, with Technology generating the highest profit at ~\$650K.

Product Profitability & Discount Impact

Top Profitable Products

- Canon imageCLASS: ~\$25K
- Cisco Smart Phone: ~\$18K
- Motorola Smart Phone: ~\$17K
- Hoover Stove: ~\$12K
- Sauder Bookcase: ~\$11K

Discount Analysis

High discounts reduce profitability. Products with 0% discount generate ~\$1,800K profit, while those with 5% discount generate ~\$300K. Higher discounts (10%+) show minimal profit.

Muhammed Yedwab placed

780

Central Region

Customers in this region

Revenue is concentrated among top customers, with some placing frequent orders. Customer base varies significantly by region, with Central region having the highest count (780) and Canada the lowest (180).

Business Recommendations

Reduce Excessive Discounting

High discounts significantly reduce profitability. Limit discounts to 5% or lower to maintain margins.

Focus on High-Margin Products

Prioritize Technology category and top profitable products like Canon printers and Cisco phones.

Retain Top Customers

Implement loyalty programs for high-value customers like Tom Ashbrook and Tamara Chand.

Improve Low-Performing Regions

Develop strategies for Canada (180 customers) and Caribbean to increase market penetration.
